ELECT

DON STALEY

FOR FIRE COMMISSIONER

District Five

As your District 5 Fire commissioner, my priorities are many. I have been active in the Fire Prevention community here for over 12 years and in a leadership role for over 5. I've been on the front lines many times and saw the need to focus on the teams on the ground. These hard-working volunteers consistently remind me of the need for additional training, improved processes, and a renewed commitment to safety. I bring a unique skillset in construction methodology that aids in prevention and safety practices. As a businessman I am keenly aware of the importance of disciplined fiscal responsibility, managing resources effectively, and looking for additional funding sources such as grants.

As your District 5 Commissioner I look forward to working with all in Lincoln County.

THEY LEFT ME OUT OF THE "OFFICIAL LINCOLN CO. VOTERS' PAMPHLET," BUT I AM STILL ON THE BALLOT (THANKFULLY)

THANKS FOR YOUR CONSIDERATION!

PLEASE VOTE!

ODESSA MEMORIAL HEALTHCARE CENTER "...bringing caring, quality healthcare to our community."

AVISTA OFFERS TIPS FOR MANAGING ENERGY COSTS DURING COLD WEATHER- Heating can make up to 60 percent of a home's monthly winter energy costs

With the arrival of the sustained colder temperatures, heating systems are operating more frequently and for longer periods of time, which can increase monthly energy costs. Avista suggests checking your home's air flow and making sure to use supplemental heating sources efficiently to help manage your winter energy bill.

Making sure door sweeps are in good condition and caulking around windows and doors will help prevent cold air from seeping in under doors. As a temporary measure, roll a towel and place at the base of exterior doors. Other no-cost recommendations include:

- Setting your heating thermostat at 68 degrees when you are home and reduce it a few degrees at night and when you are away.
- It is recommended that furnace filters be replaced periodically (every 1-2 months or when dirty) to maintain proper airflow and operate efficiently.

- Restricting the use of your wood fireplace in extremely cold weather and closing the flue damper when not in use. Fireplaces can rob your home of heat provided by your heating system and reduce your comfort.
- Using space heaters only in small, occupied areas for short periods of time and not using them as a main source of heating. They can be more costly to operate than other heat sources.

- Practicing zone heating with baseboard heat by turning down the heat in unused rooms and closing the door. Baseboard coils should be vacuumed to remove dust buildup in order to improve heat transfer.

- Turning off kitchen, bath and other ventilating fans when you are done. In one hour, these fans can pull a house full of warm air right out of the home.

- Adding a sweater and an extra blanket to stay warm rather than adjusting the thermostat. If you are planning to travel over the holidays, make sure your home is not wasting energy while you are away by turning down the thermostat on your heating system and water heater and by shutting off lights except for security.
