FULL TIME HVAC Project Manager

Now taking applications for a self-motivated individual who wants to be part of a winning team! Kysar Mechanical Inc. is looking for a motivated individual for our residential Project Manager.

Please email a resume and cover letter to this advertisement to admin@kysarmechnical.com

What we offer: Health, dental & eye for employees, Vacation, Holiday Pay (7 paid), Incentive performance plan, Matching 3% 401K

Position Overview: Full time position Monday through Friday with emergency after hours installs, 99% working local, Project Manager of heating cooling systems in residential work environment, Clean work environment

Job Overview: A Project manager's main objective is to manage and deliver the experience our client purchased from to be completed as per blueprint promised in the strategy room.

Good project managers are people with an excellent entrepreneurial mindset. This allows them to think about a project beyond the basic skill set needed to manage it., it is the project manager's job to direct teams and team members to the finish line. At the end of the day, the project's success or failure rests solely on the project manager's shoulders, and he or she is the one responsible for the end result.

Project managers keep knowledge and information flowing seamlessly. They need both technical know-how and first-hand knowledge of the tasks they assign to others to keep the project moving forward. But technical know-how does more than enable project managers to communicate ideas effectively to all those involved. Good project managers use their technical understanding to win team members' respect. Since project managers influence more decisions than anyone else in the company, their primary task is to use what they know to not just win employees' respect but keep it throughout the project and into the future.

Day and Night Shift Rotations Available

Lincoln Hospital is hiring Certified Nursing Assistants. We are a community of care givers delivering every day on our mission to provide compassionate and personalized care that is accessible for all. Nursing Assistants who work at our facility care for a variety of patients and develop stronger relationships with patients. Lincoln Hospital is offering the opportunity to sponsor tuition for Certified Nursing Assistant education and certification.

Job Duties: Take and document Vital Signs (blood pressure, temperature, heart rate etc.); Report to Nurse any abnormal vital signs or changes; Assist patients with ADLs; Coordinate care with multidisciplinary team; Provide compassionate care

Job Requirements: Current NA-C license or ability to obtain NA-C through employer sponsored education; current BLS certification or obtained within six (6) months of employment.

Preferred Qualifications: High school diploma or GED

Choose Lincoln Hospital: NAR to NAC Opportunity! Lincoln Hospital is also offering employer sponsored tuition for NAC training and certification. Lincoln Hospital was voted as Top 100 Critical Access Hospital in the country in 2020. Lincoln Hospital is a teaching and mentoring facility; allowing professional growth for both the experienced and new nursing assistant. Nursing assistants at Lincoln Hospital can influence culture by joining care teams and committees that support growth and change within the organization.

The Facility Screener must possess the desire and ability to contribute to the success of Lincoln Hospital and Clinics.

FILL OUT YOUR "MUSSEL-FREE" FORM AT LAKE ROOSEVELT NATIONAL RECREATION AREA

The waters of Washington State, including Lake Roosevelt National Recreation Area, are a great resource that we are all responsible for. With that in mind, all boaters, including holders of our annual boat launch permit, are required to complete an aquatic invasive species mussel free certification form before launching any watercraft at Lake Roosevelt National Recreation Area. This is part of an on-going campaign to raise awareness of and prevent the introduction of all aquatic invasive species, but particularly quagga and zebra mussels, into Lake Roosevelt and the Columbia River. If your form is not filled out and properly displayed on your tow vehicle dashboard, law enforcement officers will issue a citation.

Aquatic invasive species are easily transported between bodies of water by boats, inflatable kayaks and float toys, fishing waders and tubes, trailers, and any other water gear. Currently, freshwater lakes in Washington, Oregon and Idaho are free of invasive quagga and zebra mussels. Do your part to help prevent the introduction of quagga and zebra mussels by making sure that you CLEAN, DRAIN and DRY all your water gear before launching at Lake Roosevelt National Recreation Area.

The bright pink self-certification forms are available at each boat launch or through our website at: <https://www.nps.gov/laro/learn/nature/upload/Zebra-and-Quagga-mussel-certification-reduced-508.pdf>. After following the flowchart and completing the form, place it in the windshield of your launch vehicle where it can be easily seen.

If you only boat within Washington State, you only need to complete the form once per season. If you launch your boat outside of Washington State, you will need to complete the form before you launch at Lake Roosevelt again. Watercraft coming from outside of Washington need to be cleaned, drained, and fully dried (dry time may be up to 30 days) or have valid proof of inspection within the last 30 days, before launching at Lake Roos-

velt. It is important to remove all dirt, plants and water from boats, trailers, and other water gear prior to launching every time. An invasive mussel species native to Ukraine and Russia, quagga/zebra mussels quickly cover most hard surfaces and can clog boat motor intake systems, water intake

structures, recreational beaches, agricultural irrigation systems and hydro-electric power plant operations. These small mussels can survive out of the water for up to two weeks and the microscopic larvae can be transported in bilges, ballast water, live wells or other equipment that holds water. Researchers within

the Pacific Northwest Economic Region estimate that the economic impact of a mussel infestation would cost the Pacific Northwest \$500 million annually. For more information, check the Lake Roosevelt National Recreation Area website at www.nps.gov/laro.
