Thank you.

Avista would like to thank our customers for their patience during this unprecedented heat wave.

Last week, triple-digit temperatures challenged historic records across the entire Northwest. The extreme heat put a strain on the region's electric systems, Avista's included.

The intense temperatures—combined with a significant increase in customer usage—resulted in some of our transformers and substations exceeding heat and usage limits earlier than forecasted. Because of this, protective outages were implemented to prevent extensive damage to the system that could have led to wide-spread and prolonged outages.

We recognize that these outages were challenging and frustrating. As a company, we continuously strive to improve the way we operate, and to learn and grow from events such as this one. We are committed to improving in the future.

We also appreciate all of our customers for answering the call to conserve, which helped immensely to alleviate the strain on our system.

Again, thank you for your patience—and for your ongoing efforts to use electricity efficiently.

SECURE YOUR LOAD FOR SAFER ROADS

We all have a part to play in keeping Washington safe and litter free. Roadside litter impacts the well being of our communities and the beauty of our state. Unsecured loads are a safety hazard for drivers and contribute to litter on state highways. When debris from your vehicle ends up on the roadway, it can cause crashes or injuries and also harms the environment. One of the quickest and easiest ways to prevent litter and

keep roadways safe is to secure your vehicle's load before every trip. We all have the power to prevent crashes and injuries and to ensure Washington roads are litter free.

- Unsecured loads cause 300 crashes a year in Washington and contribute up to 40% of roadside litter.
- Every year Washington State Patrol pulls over more than 1,000 vehicles for having unsecured loads and losing debris.
- The National Highway Transportation Safety Administration reports that in 2019, crashes involving road debris resulted in 739 deaths, 17,367 injuries, and 89,915 property damage crashes.
- Littering and driving with an unsecured load are against the law in WA. Fines range from \$50 to \$5,000. If something falls out of your vehicle or injures someone you could face jail time too. Some local jurisdictions have stricter laws and may charge an unsecured load fee at their facilities.
- Washington's law RCW 70A.200.060 sets minimum fines for littering and illegal dumping.
- Washington's law RCW 46.61.655 requires motorists to cover and secure their loads to prevent cargo from breaking free.
- Washington's law RCW 70A.200.120 requires counties and cities with staffed transfer stations or landfills in their jurisdiction to adopt an ordinance requiring people to secure their vehicle loads when bringing solid waste to their facilities and to charge a fee from unsecured loads arriving at these facilities.
