**Wildfire season is here.**  
 Avista is ready.

Dry vegetation and high winds increase the chances of wildfires. But Avista is doing our part to keep our system and communities safe.

We are partnering with property owners to remove or trim trees near our lines. We are making improvements to make our system stronger. And we are changing operations when hot, windy forecasts are predicted. In areas of higher risk, we can set the system to be more sensitive, meaning we don't try and reenergize automatically if something comes in contact with a line. We physically patrol the line when it's safe to make sure there is no fire danger before reenergizing.

Our system is built to keep outages to a minimum but help us keep you informed. Log in and update your contact information on our website. Also sign up to receive power-outage alerts by text or mobile app.

Click the word "outage" in the top navigation to locate the page. We just want to keep you safe.
